Duende. The SSL for your Audio Workstation.

The legendary sound of SSL for your digital audio workstation

Up to 32 channels of console-grade SSL EQ and Dynamics processing

Powerful DSP engine based on SSL's award-winning C-Series mixing consoles

Relieves the plug-in processing burden on your computer's CPU

Single FireWire connection for fast set-up

You already know the sound of an SSL console – you've heard it on countless hit records from the last four decades. Now those superior mix characteristics are available within your digital audio workstation, seamlessly integrated as powerful plug-ins served up on a custom DSP platform.

Based on the digital technology behind SSL's C-Series consoles, Duende delivers the complete SSL mix experience – powerful channel and dynamics processing and the legendary Stereo Bus Compressor. The easiest way to get professional mixes that sound like a record.
